Subject: **#WordsToLiveBy : Top Most Match On YouTube - Social Improvement**

This is the bottom line,

The words that I place before the social body
are the words of the past somehow we have lost our sanity.

The prejudiced position that you have created in this conspiracy that can't be told -- has extremely damaged the fabric of "the force" that bonds us collectively to #SocialTrust.

If you continue to hold the beliefs that you hold, without compromising to an understanding of why you are in the wrong way direction this day.

Like I said in the evaluation of the effects here --- in a world that is primarily villages and towns, with no cities, the belief that you hold may just be ok to carry on.

But in a global world, where we can grasp outward a better projection of terms we are in and what could be better for us collectively...

This is where we stand in an "intractable conflict" of a "wicked problem" that I have in fact the motives to correct without the harm on all sides of the table that can be generated based on the secrets that must be uprooted, terminated, and not resold to another allowance of such dastardly ways of thinking.

We must move to a direction of mutual understanding.

Today, I have contacted Lambda Legal in that if they find relevance [that I see there is] in my placing my holding documented records of experiences based on real-time journal writings onto the web in a live cyber active information society indexed presence, there is absolutely nothing in this journal as a whole collection that anyone can form a justifiable reason for a successful "content removal" request based of deception and lies.

Everyone is following the wrong set of priorities --- including BigTech to allow the feature of blocking used to suppress the truth from coming forward.

I have a tweet exchange and follow-up calls to @SpeakerPilosio [you can search twitter with my handle Gruwup].

She has placed onto the investigation BIG TECH and if my evidence of statements made is persuasive enough. the Rvan White Care Act-funded social service agencies will be next.

My entire public statement is placed into this very long PDF detailed explanation of why we are headed on a course of wrong directions and we must unite together as one, such as Pope Francis calls us to.

This insufferable unending intractable conflict of a wicked problem at the hands of the HHS to belittle a segment population by this debate must terminate with the understanding of something must greater --- the stigma that has been the Social Services to chastise HIV out of existence by those you consider "The Dirty" is an unsuccessful model to continue.

We must find something other than that model and that model must be acknowledged as wrong.

My latest tweet entries to the @SanBernardinoPD is calling for criminal pursuits if you do not change your direction of ideal and support a better model of peace.

Twitter Search [SanBernardinoPD Group]

The political clout that you once had is becoming less and less at your reach to support a lie in front of the public.

And I really like my Psych Doctor in this placement of content onto the web:

My Full and Complete Position Statement Is Within This PDF of email directed to our direct property neighbor here on Grande Vista --- for more than 40 years. It will be 50 years coming up in 2020 that the Driskill home is placed here in San Bernardino. You dishonor my heritage by placing me in a situation that from you tells me "Go Fuck Off And Die" because you will not release your hate paradigm classification indexing clients as Sinners "The Dirty" and the good ones, the ones we actually will help, the innocents of the victims of the sinners.... the innocents live and the sinners die under your regime of tyrannical leadership --- and you have to finally admit --- you are wrong. Under such a system, where you call "The Dirty" are cut out --- chastised, doesn't work. So, you double down in this administration to the policy it even more extreme "Go Fuck Off and Die"--- that is what we will call it :

The Go Fuck Off And Die Trump Ruling

County of Santa Clara vs. HHS

<https://www.hrc.org/blog/trump-pence-admin-allows-medical-providers-to-deny-care-to-lgbtq-people>

HRC responded to the Trump-Pence administration's latest attempt to undermine the rights and welfare of LGBTQ people and their families. The Department of Health and Human Services (HHS) announced a final version of a regulation that would allow medical providers to cite their personal beliefs in refusing to provide a broad spectrum of services — including lifesaving care for LGBTQ patients.

"The Trump-Pence administration's latest attack threatens LGBTQ people by permitting medical providers to deny critical care based on personal beliefs," said HRC Government Affairs Director David Stacy. "The administration's decision puts LGBTQ people at greater risk of being denied necessary and appropriate health care solely based on their sexual orientation or gender identity. Everyone deserves access to medically necessary care and should never be turned away because of who they are or who they love."

HHS announced today the issuance of the final rule that will sanction discrimination by healthcare providers who believe their personal beliefs should determine the care a patient receives. The rule could allow virtually any individual or entity involved in a patient's care — from a hospital's board of directors to the receptionist that schedules procedures — to put personal beliefs ahead of a patient's health. This regulation will undoubtedly empower health care providers to deny necessary care to LGBTQ people and women.

This regulation will deter health care organizations and providers from taking necessary action to guarantee that all patients have access to the care they not only deserve but also are legally entitled to. In practice, the broad reach of the rule could allow health care providers to refuse to provide not only abortion and sterilization procedures, but also to deny treatment or preventative care for AIDS or HIV, hormone therapy treatment and transition related care and in-vitro fertilization for lesbians, single women or interfaith couples. The rule is especially dangerous for those already facing barriers to care, particularly LGBTQ patients, patients of color and those who are struggling to make ends meet.

Fear of discrimination causes many LGBTQ people to avoid seeking health care, and when they do enter care, studies indicate that LGBTQ people are not consistently treated with the respect that all patients deserve. Studies show that 56% of LGB people and 70% of transgender and gender non-conforming people reported experiencing discrimination by health care providers — including refusal of care, harsh language and physical roughness because of their sexual orientation or gender identity. According to the 2015 U.S. Transgender Survey, 23% of transgender respondents did not see a doctor when they needed to because of fear of being mistreated as a transgender person and a startling 55% of transgender respondents who sought coverage for transition-related surgery were denied. Delay and avoidance of care due to fear of discrimination compounds the significant health disparities experienced by LGBTQ people.

CHAPTER IX.

SOCIAL IMPROVEMENT.

"Go fix some weighty truth ;
 Chain down some passion ; do some generous good ;
 Teach ignorance to see, or grief to smile ;
 Correct thy friend ; befriend thy greatest foe."

As in the material world, without light there can be no shade to contrast with it, and as no poison exists without its opposite in the form of an antidote, so it is in the mental world, there is not a moral evil or poison, however deadly, but has its antidote in the spirit. Our Saviour suffered in, and left, the material world, in order that He might restore to us the use of our spiritual nature. He said, "I go to send the Comforter unto you, that He may teach you all things." This spirit was promised without limitation, or reservation of any kind, to all who loved God, and
